

MICRO on the outside...

Actual size

## GIGA on the inside.

The incredibly portable Imation Micro Hard Drive makes transporting and sharing documents, presentations, graphics, photos, music or e-mails faster and easier than ever. Containing the world's smallest hard drive, it delivers big features, including a unique, flexible USB connector that locks back into the drive; robust, downloadable security software; shock resistance; and compatibility with all major operating systems, including Windows, Mac OS and Linux.

For small size, high style, and large capacity in a portable storage device, the new Imation Micro Hard Drive is the next big thing.

- USB 2.0 technology for high-speed data transfer and multi-platform compatibility
- Requires no external power source: taps the power of a PC or Mac to operate
- Compatible with Windows™, Mac OS™ and Linux™ operating systems
- Magnetic Data Encoding and Error Correction help ensure reliable read-write performance
- Shock resistant to 1,000 Gs
- Available in 2GB or 4GB capacities

# IMATION MICRO HARD DRIVE

## Durable, reliable, secure

Breakthrough portability means the Imation Micro Hard Drive will be going places that hard drives have never gone before. That's why the drive is not only built to be tough but also reliable, with security software that can be downloaded free from [www.imation.com](http://www.imation.com). This powerful security software features:

- 128-bit encryption to prevent unauthorized access to your files
- File synchronization that automatically retains up to five versions of your data

## Small in size, huge in capacity

The hard drive inside the Imation Micro Hard Drive is smaller than a quarter—0.85 inch to be exact. Yet it's capable of storing massive amounts of digital content. This miniature hard drive is a big reason why the Imation Micro Hard Drive is one of the smallest, most portable storage devices available today.

## Click it and carry it

The unique, flexible and totally integrated USB 2.0 connector locks back into the body of the Imation Micro Hard Drive, forming a convenient attachment clip for briefcases, backpacks and belt loops. Perfect for on-the-go business travelers, students or mobile professionals.
